Grow Well Because They Are Well Grown

**DISCO SEEDS CAN BE OBTAINED FROM  
YOUR LOCAL DEALER**

Our country needs paper and we are curtailing our catalog for that reason. Although we may have deleted a few varieties of vegetable and flower seeds, we have included the most popular and useful. We are glad to say that our stocks are good in regard to germination and purity. Some varieties are very scarce and exceptionally hard to get. Those who order early can expect to get the best selection.

---

2925 PYRETHRUM (P)—Commonly called Painted Daisies. Pkt. 10c.
---

PORTULACA, Moss Rose (A)—Masses of green foliage, bright colored flowers.
---

2916 Grandiflora—Large single. Pkt. 10c.
2917 Grandiflora—Double mixed. Pkt. 10c.

2952 SALPIGLOSSIS, Grandiflora (A)—Many colors. Pkt. 10c.
---

2962 SHASTA DAISY, Alaska (P)—Snow-white daisies. Pkt. 5c.
--

2733 STRAWFLOWERS, Mixed (E)—Everlasting, many shades. Pkt. 10c.
--

2220 DISCO SWEET PEAS, Spencer or Butterfly Mixture (A)—Choicest blend, many shades. Pkt. 5c; oz. 20c.
--

2984 SWEET WILLIAM, Double Mixed (P)—Wide range of color. Pkt. 5c.
--

3009 VERBENA, Mammoth Mixed (A)—3 to 4 inches in diameter, many colors. Pkt. 10c.
---

3034 ZINNIA, Disco Giant Dahlia Flowers (A)—Beautiful colors. Pkt. 5c.
--

3042 ZINNIA, Double Lilliput or Pompon, Mixed Colors (A)—Dwarf variety. Pkt. 10c.
3040 WILD GARDEN MIXTURE (A)—Pkt. 5c.

**DAKOTA IMPROVED SEED COMPANY, Mitchell, South Dakota**

## Selected Field Seeds

All our field seeds are selected with the greatest care, grown in districts where our long experience has proved to us produce the best. Thoroughly re-cleaned and tested for germination and purity. Free from all noxious weeds.

All field seeds and seed corn are quoted F.O.B. Mitchell subject to market change. Bags free except on Seed Grain and Soy Beans as noted.

### OUR BRANDS

**DISCO BRAND.** Seed to qualify for this brand must represent the cream of the crop, free from noxious weeds and of exceptionally high purity and germination.

**EMERALD BRAND.** Good quality seed fully equal to much of the so called number one seed.

**SUNSHINE BRAND.** Good general purpose seed, free from harmful or noxious weeds, good germination.

**LOWER GRADES.** We have many lots of lower grade than those offered in this list. If interested ask for special prices and samples, stating quantities required.

## DISCO ALFALFA

All our regular Brands of Alfalfas are shipped out in sealed bags, and origins supported by U. S. Verified Origin Certificate. Look for this seal and certificate which insures genuineness. All our Alfalfas are hardy, northern grown.

The hard freeze last September damaged the seed crop on a great many alfalfa fields, thus creating a short crop of seed. With good moisture prevailing, and the absence of grasshoppers every indication points to a good demand for alfalfa seed this spring, so we respectfully request you to place your order early.

**GRIMM**—Our stocks of this well known variety have been grown under the most exacting conditions, both in regard to drouth and climate. Sow 10 to 15 lbs. per acre.

Sunshine	\$44.00
Emerald	45.00
Disco	46.00

**COSSACK**—The dry years experienced in the northwest have demonstrated the unusual drought resistant qualities of Cossack Alfalfa. Sow 10 to 15 lbs. per acre.

Sunshine	\$45.00
Emerald	46.00
Disco	47.00

**DAKOTA 12**—A native of the Black Hills district, giving excellent results to many of our customers. Sow 10 to 15 lbs. per acre.

Sunshine	\$43.00
Emerald	44.00
Disco	45.00

**REGISTERED ALFALFA STATE SEALED and CERTIFIED SEED**—The South Dakota Crop Improvement Association and the Wyoming Department of Agriculture have a resident inspector in Mitchell who is available to open and reseal the bags containing any quantity desired.

In buying State Sealed Seed be careful to examine the seals and tags.

Registered Red Tag Grimm	100 lbs. \$47.00
Registered Yellow Tag Grimm	41.00

Cossack Alfalfa

For Customers Who Prefer Not to Pay for Pedigreed Alfalfa We Provide These Common Varieties of HARDY DOMESTIC GROWN COMMON ALFALFA

We have excellent stocks of seed grown in South Dakota, Montana, Wyoming, and Nebraska. All grown under the severest possible climatic conditions. Grown on new land free from noxious weeds and free from disease.

## DISCO CLOVERS

**TALL SWEET CLOVER**—This is by far the most popular biennial variety. It stores up a tremendous quantity of reserve food in its deep tap root. Sow 12 to 15 lbs. per acre.

Sunshine	\$11.50
Emerald	12.50
Disco	13.50

**YELLOW DWARF**—This variety is also a biennial, growing a crop the first year; flowers, bears seed and dies at the end of the second year. Stems are finer. Sow 12 to 15 lbs. per acre.

Emerald	\$12.50
Disco	13.50

**GRUNDY COUNTY (Dwarf White)**—A biennial. It is earlier, grows to a medium height, does not require clipping, matures its seed earlier and more uniform. Sow 10 to 12 lbs. per acre.

Disco, per 100 lbs.	\$13.50
---------------------	---------

**HUBAM**—Annual white. Where it is considered desirable to have the crop make its growth, flower, form seed and die in one year, Hubam has advantages. Sow 10 to 12 lbs. per acre.

Disco, per 100 lbs.	\$18.00
---------------------	---------

**ALSIKE or SWEDISH CLOVER**—Produces the finest quality of clover hay; unusually hardy, and well adapted for pasture. Thrives best on low lands. Sow 5 to 6 lbs. per acre.

Disco, per 100 lbs.	\$32.00
---------------------	---------

**MEDIUM RED CLOVER**—Insist on domestic grown seed. Sow 8 to 12 lbs. per acre.

Disco, per 100 lbs.	\$32.00
---------------------	---------

Crested Wheat Grass

## Disco Grass Seed

**BROME GRASS**—Grows to an average height of 30 inches. The leaf growth very abundant. Can endure extreme cold. Sow 20 to 25 lbs. per acre early in spring or late in fall.

Canadian No. 1	\$14.50
Domestic	13.50

**CRESTED WHEAT GRASS**—Sow Crested Wheat Grass just as soon as you can get on the land in the spring. If fall seeding is more desirable, sow in September or October or just before freeze up. Never sow Crested Grass deeper than one-half inch. About 15 to 20 pounds per acre is the required amount when seeded with a grain drill which in our opinion is the best method for seeding.

Fairway Strain	100 lbs. \$13.50
Standard Strain	13.50

**SLENDER WHEAT GRASS**—This is one grass which we never hesitate to recommend. Its hardy, drought resistant nature has made it a favorite. Sow 15 to 20 lbs. per acre.

Disco, per 100 lbs.	\$13.50
---------------------	---------

**WESTERN WHEAT GRASS**—A grass native to the Great Plains region where it will give good results with a small amount of moisture. Very hardy, makes excellent pasture, and hay is relished by stock. Sow 15 to 20 lbs. per acre.

Disco, per 100 lbs.	Ask for Price.
---------------------	----------------

**RED TOP, Solid Seed**—Grows most luxuriantly on moist, rich soils; very robust; produces strong, thick roots and makes a firm sod; very desirable for pasture purposes. Sow 6 to 8 pounds of solid seed per acre.

Disco	\$14.00
-------	---------

**REED CANARY GRASS**—A hardy perennial grass suitable for hay or pasture. Boggy or marshy land can be transformed from a liability into an asset by seeding with this Canary Grass. Should be broadcast 5 to 6 pounds per acre, drilled to 3 pounds per acre in 16 to 18 inch rows.

Disco	\$31.00
-------	---------

**TIMOTHY**—Almost too well known to necessitate any description. A hardy perennial, having strong resistance to both cold and drought. Sow 10 to 15 pounds per acre.

Disco	\$8.00
-------	--------

**DOMESTIC RYE GRASS**—Well adapted for quick pastures, meadows and lawns. Can be closely cropped. Will give best results on moderately rich soil. Should be sown at the rate of 25 to 35 pounds per acre.

Disco	\$10.00
-------	---------

## Sorghums for Fodder

Don't plant any forage crop seed before the soil is thoroughly warmed up.

**WACONIA SORGHUM "Genuine Originator's Stock"**—This variety has proven to be the most outstanding sorghum ever grown. Be sure to plant an adequate acreage to take care of your needs. No farm should be without Genuine Waconia Sorghum Cane. Drilled 10 to 12 lbs. per acre.

Sealed Bags, per 100 lbs.	\$5.50
---------------------------	--------

**ATLAS SORGO**—Gives a tremendous yield per acre not only in forage but in grain as well. The grain has approximately 90 per cent of the feeding value of corn. The usual quantity sown per acre is 4 to 5 pounds. Per 100 lbs.

	\$5.00
--	--------

**NEW LOW PRUSSIC ACID CONTENT EARLY BLACK AMBER No. 39-30-S**—Our stock is certified, or grown from certified seed. Drilled 10 to 12 pounds per acre.

Certified, per 100 lbs.	Ask for Price
Affidavit, per 100 lbs.	4.50

**EARLY BLACK AMBER**—The Amber is the earliest of all the fodder canes. Will stand extremely dry, hot weather. Considered excellent for feeding stock. Sow 40 to 60 pounds broadcast; 10 to 12 pounds drilled per acre.

Southern Grown, per 100 lbs.	\$4.50
South Dakota Grown, per 100 lbs.	4.00

**HONEY DRIP**—A very popular variety in many sections of South Dakota and Iowa, has a higher sugar content than the Amber cane. Drilled 10 to 12 pounds per acre.

Southern Grown, per 100 lbs.	\$4.75
South Dakota Grown, per 100 lbs.	\$4.25

**SORGHUM, Orange**—This is a true variety of sorghum cane for fodder. It has everything a good sorghum cane should have. Give it a trial, as we thoroughly recommend it. Drilled 10 to 12 pounds per acre.

Southern Grown, per 100 lbs.	\$4.25
------------------------------	--------

**GROHOMA**—Produces an extra heavy thick leafy stalk, 4 to 5 feet tall. When growing it looks very much like corn. Later than any of the other varieties and produces a big yield of fodder. The grain makes fine feed for all livestock.

Per 100 lbs.	\$5.25
--------------	--------

**COES**—A combination of grain and forage crop. Will grow between 5 and 5½ feet tall, producing a heavy crop of forage and seed. Matures in about 90 days in an average season. Per 100 lbs.

	\$4.50
--	--------

**SUDAN GRASS**—Don't plant Sudan grass too early. It will not withstand frost. Leave seeding until after corn planting. Sudan is the ideal catch crop for hay. Broadcast 20 to 25 pounds. Drilled, 8 to 12 pounds per acre.

Finest Texas Grown. Per 100 lbs.	\$6.00
----------------------------------	--------

## DISCO MILLETS

### HAY MILLETS

**GERMAN MILLET**—One of the best millets for hay, and should be cut when in full bloom. Sow 25 pounds per acre. Per 100 lbs.

	\$3.75
--	--------

**DISCO SIBERIAN MILLET**—A very fine millet. Unusually early, extremely hardy and withstands drouth. Sow 30 pounds to the acre. Per 100 lbs.

	\$3.75
--	--------

**DISCO BILLION DOLLAR GRASS**—Will grow from 6 to 9 feet tall. Stands up remarkably well and yields enormous crops. Sow 20 pounds to the acre. Per 100 lbs.

	\$5.00
--	--------

### GRAIN MILLETS

**HOG or WHITE PROSO**—Grows from 18 inches to 36 inches. For hay purposes use from 30 to 40 pounds, and for seed from 8 to 12 pounds per acre. Per 100 lbs.

	\$3.00
--	--------

**DISCO EARLY FORTUNE RED PROSO**—Is the same type as white proso except that the color of the seed is red. Sow the same amounts as Proso millet. Per 100 lbs.

	\$3.00
--	--------

## Dwarf Essex Rape

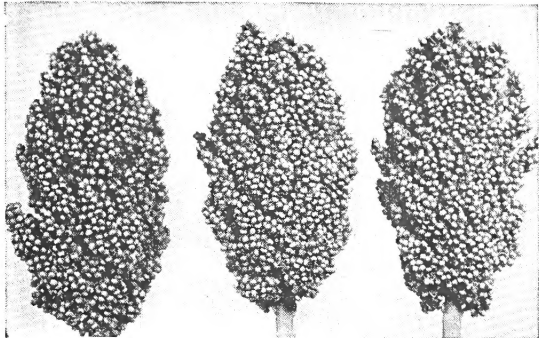

**DWARF ESSEX RAPE**—It is considered a valuable feed crop for young stock, as rape contains the necessary elements which will give them proper growth. Sow from April to August, 4 to 5 pounds per acre.

Disco, per 100 lbs.	\$12.50
---------------------	---------

# Sorghums for Grain

All our Grain Sorghums are treated with a known and recommended Seed Disinfectant which will control smut.

**COLBY MILO**—A grain sorghum which has proved itself to be one of the best, not only in heavy yield but also in combating drouth, grasshoppers, and other adverse conditions which the Northwest generally speaking has encountered these past few years. Plant 3 to 4 pounds per acre.  
**Certified**, per 100 lbs.....\$5.50

Colby Milo

**SOONER MILO**—This variety of grain sorghum has given good results in various sections due to its ability to withstand drouth. Is taller growing than Colby. Plant 3 to 4 pounds per acre.  
**Certified**, per 100 lbs.....**Crop Failure.**  
**Affidavit**, per 100 lbs.....**Crop Failure.**

**EARLY KALO**—A variety of grain sorghum which was introduced at the Ft. Hays Experiment Station, Hays, Kansas. It proved to be one of the best grain sorghums raised in this section last year.  
Per 100 lbs.....\$3.50

**FETERITA**—One of the outstanding grain sorghums. Early and very drouth resistant, grows 5 to 6 feet tall and has abundance of leaves which make excellent fodder. The grain is ideal for all livestock. Drill 4 to 5 pounds to the acre. Per 100 lbs.....\$4.50

## Disco Open Pollinated SEED CORN

### YELLOW DENTS

**DISCO SPECIAL**—South Dakota's best known variety. The best ninety day yellow dent on the market. Has a very leafy growth and attains a height of from 7 to 8 feet. Per bushel.....\$3.00

**MINNESOTA 13**—Introduced by the Minnesota Agricultural College. Average ear usually 7 to 9 inches long, maturing in 90 days. Per bushel.....\$3.00

**GOLDEN JEWEL**—Adapted to South Dakota and Iowa, producing a compact ear, 8 to 9 inches long. Will mature in 95 to 100 days. Per bushel.....\$3.00

**EARLY MURDOCK**—Matures in 95 to 100 days. Stalks medium in height. Ears from 7 to 8 inches, having 16 to 20 rows. We recommend it for southern South Dakota, southern Minnesota, and northern Iowa. Per bushel .....\$3.00

**FULTON YELLOW DENT**—Ninety-day corn selected and named at Fulton, South Dakota. Used by many of our customers around Mitchell. Per bushel.....\$3.00

**SILVER KING WHITE DENT**—A very early White Dent corn that will mature in 90 to 95 days under normal conditions. Ears 8 to 9 inches long with 16 rows of deep grain kernels. Per bushel.....\$3.00

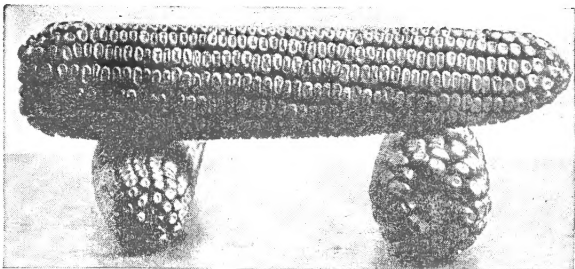

**NORTHWESTERN RED DENT**—Red in color with a white cap. Will mature in 80 to 90 days and is excellent corn for hogging off. Per bushel.....\$3.50

**EARLY CALICO**—Earlier than most large dent varieties. A heavy yielder of both corn and fodder. Usually will do well on poor type soil where other corns fail. Per bushel .....\$3.50

### FLINT VARIETIES

Specially suited for late planting. Show great resistance to grasshoppers.

**RAINBOW FLINT CORN**—Specially suited for late planting and will give a good yield. It is excellent for hogging off Per bushel.....\$3.50

Disco 111-A Hybrid

## DISCO HYBRID SEED CORN

**DISCO 413 AA**—Relative medium maturity. A new release from South Dakota State College which shows much promise. Can be used in all corn producing areas of South Dakota. Bred near Mitchell, is one of first corns that has ever been released from the State College grown in our locality. We highly recommend this. We suggest that you order early as the stock is limited. Per bu.

**Edge Drop** .....\$8.00  
**Hill Drop** ..... 6.90

**DISCO 110-A**—Relative 110 days. An old standby, the most popular hybrid grown in the United States, noted for its high yielding ability; resistant to cold, wet soil, can be planted earlier than most hybrids; an ideal feeding corn. Ears medium length and good quality. Adapted to central and southern South Dakota. Per bu.

**Edge Drop** .....\$7.00  
**Hill Drop** ..... 5.50

**DISCO 111-A**—Relative 110 days. An exceptionally good corn developed by the Iowa State Experiment Station. Bred with a strong shank so as to eliminate dropping of ears; adapted to either hand or mechanical picking. Has extreme lodging resistance and yielding ability with good feeding qualities. Adapted to central and southern South Dakota and Minnesota. Per bu.

**Edge Drop** .....\$7.00  
**Hill Drop** ..... 5.50

**DISCO 110 W**—Relative 110 days. Used quite extensively in Hanson and Davison counties, and in the tiers of counties south and east and grown by our very best hybrid corn raisers. Deep kernel and not flinty. Highly recommended as an all around corn for yielding ability and feeding quality. Per bu.

**Edge Drop** .....\$7.00  
**Hill Drop** ..... 5.50

**DISCO 112 W**—Relative 112 days. Very popular hybrid, stalk of medium height, well placed ears of good quality and high shelling percentage. Well adapted for southern Minnesota and South Dakota Per bu.

**Edge Drop** .....\$7.00  
**Hill Drop** ..... 5.50

**JACQUES NORTHERN GROWN HYBRID SEED CORN**—The demand for Jacques Northern Grown Hybrid was so good that we are completely sold out of all maturity dates.

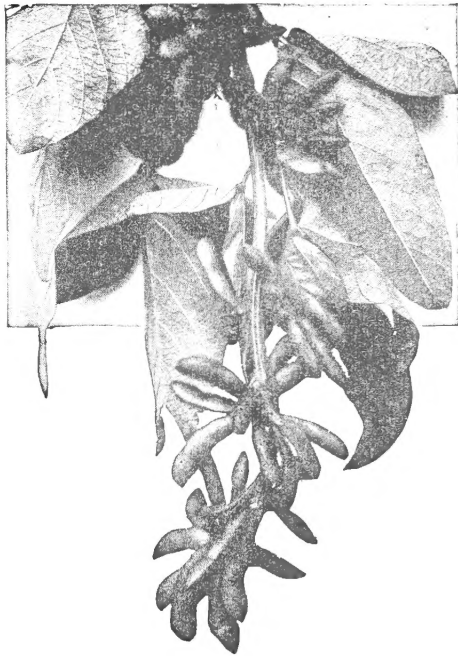

Chinese Elm Seedlings

## DISCO DAKOTA-GROWN HARDY CHINESE ELMS

Hardy, well rooted seedlings.

	Per 50	Per 100	Per 200
6-12 inches	\$ .40	\$ .70	\$1.25
12-18 inches	.50	.85	1.60
18-24 inches	.75	1.25	2.35
2-3 feet	1.00	1.70	3.10
3-4 feet	1.80	3.25	5.20

Prices on Chinese Elms are F.O.B. Mitchell, South Dakota, or Emmetsburg, Iowa.

## DISCO SOY BEANS

2 Bushel Bags 25c Extra.

**"DISCO" SOY BEANS**—It has been proved the last few years that Soy Beans can be grown successfully anywhere that corn is grown and is an excellent substitute.

**RICHLAND**—Distributed by the Purdue Agricultural Experiment tation. Outstanding characteristics are high yield, early maturity and good resistance to lodging. Well worth a trial.

100 lbs.  
**Disco** .....\$6.00

**MANCHU**—Plants stout, erect, bushy, 38 inches high, maturing in about 105 days, taking 55 to 65 days to bloom.

100 lbs.  
**Disco** .....\$5.00

**DISCO MUKDEN**—Plants stout, erect, bushy, 36 inches high, maturing in about 100 days; flowers, white and purple taking 50 to 60 days to bloom. Yield about the same as Manchu.

100 lbs.  
**Disco** .....\$5.00

## Disco Improved SEED GRAINS

2 Bushel Bags 25c Extra.

**VICLAND OATS**—Vicland is a short strawed yellow oat. Some outstanding characteristics which partly account for its remarkable yielding ability are: A high degree of resistance to rusts and smuts—early maturity whereby it usually ripens ahead of hot dry weather. High weight per bushel. Reports from trials in other states are very favorable, showing that Vicland has a wide range of adaptation where early oats are grown. Per bushel \$1.75

**BUCKWHEAT, DRYLAND and SPARTAN BARLEY, SPELTZ, RIVAL and THATCHER WHEAT, BISON and RED WING FLAX, RYE** .....Write for Prices.

## Disco Lawn Grass

**DISCO EVERGREEN MIXTURE**—Long experience in the preparation of Lawn Mixtures has resulted in this now famous blend. Disco Evergreen represents the very finest scientific combinations of dwarf and close growing grasses, producing a soft, velvety turf in remarkably short time. Made up entirely from our own exclusive formula, blended in proportions we know for our rigorous climatic conditions. Sow at the rate of 1 pound per 250 square feet. 1 lb., delivered.....40c

**WHITE DUTCH CLOVER**—A dwarf-growing clover. Very valuable for lawn purposes. Requires little care and maintains its dark green color with very little watering. Your White Dutch must be pure—cheap impure seed will spoil your lawn. 1 lb., delivered.....85c

**KENTUCKY BLUE GRASS**—Also known as "June Grass." Produces an excellent pasture of beautiful verdant green, and is particularly adapted for seeding on a pasture field surrounding the home, where a good sod is desirable. Sow from 30 to 40 pounds per acre. Per lb., delivered.....40c Ask for price on larger quantities.

### VIGORO

At the time of going to press neither prices or formulas have been released by the OPA. Write for prices and full particulars.

## A GOOD NAME WELL KNOWN

For 36 years has signified the best in seeds.  
Grow Well Because They Are Well Grown

### CURRENT PRICE LIST

#### FOR EARLY ORDERS

All prices are quoted subject to being sold out and market change. Write for special prices on large quantities. We recommend early ordering. If no agent at your station, add sufficient to prepay freight or express. If you remit too much, surplus will be promptly refunded. If required by parcel post, your Postmaster will tell you in what zone from Mitchell you are located so that you may include correct postage with your remittance.

Should prices have changed when your order is received, if lower, we will refund balance, if higher, we will either reduce your order to the amount remitted, or ship C.O.D. for the balance, as you prefer.

Current Prices, February 2nd, 1943, F.O.B., Mitchell, South Dakota

See your local dealer for **Disco SEEDS** If he cannot supply, write us.

The Dakota Improved Seed Company gives no warranty, express or implied, as to description, quality, productiveness or any other matter of any seeds it sells and will not be responsible for the crop.

South Dakota customers please add 2 per cent Sales Tax.

To insure prompt attention address the firm, not individuals.

Prices are effective February 2nd, 1943. Due to weather conditions and also lack of labor in many seed producing sections, there will be a shortage of many varieties of seed this spring. We advise early ordering and when possible give second or third choice in case your first choice is sold out.
